How do these appointments help you?

Dental health examinations provide:

- Thorough examination of your current dental health to catch developing problems early
- Checking for signs of oral cancer for early detection
- X-rays, where clinically necessary, for an in-depth examination of your oral health.

Hygiene appointments provide:

- Professional removal of harmful hard plaque that can't be reached with regular brushing
- Advice and techniques – to prevent tooth decay and gum disease
- Fresher breath and a brighter smile for improved self-esteem.

We believe this results in the complete package to maintain your oral health. We recommend joining to help reduce the risk of expensive restorative treatment in the future. Please speak to any member of the team if you would like more information or for details on how to register.

* Exclusions apply to any treatments not required to maintain dental health and lab fees. For full details of the treatment benefits and exclusion, please refer to the Dentist/Patient Agreement. Patients must be dentally fit before joining.
